

Electrolyte Stamina Tablets

Electrolyte Stamina Tablets is a dietary supplement that is ideal for sports performance, people working in high temperatures, and anyone expecting to experience high levels of fluid loss.† P-5-P and L-Taurine help get magnesium into the cells more effectively to help reduce muscle cramps and increase stamina and energy.†

Electrolyte Stamina Tablets replenish your body's lost nutrients during activity so you can perform at your best.† These nutrients help conduct the electrical energies and balance fluid absorption and pressure throughout the body so you can feel recharged.† Other electrolyte products consist of only a few electrolytes. Our formula is packed with not only the major electrolytes, but all the minerals in electrolyte form and balance — with no sugar. It's a totally natural way to replace lost nutrients and help you re-energize.†

Certified Vegan, Gluten Free

Sizes: 90 tab, 300 tab

Supplement Facts

Serving Size 6 Tablets

Electrolyte Stamina Power Paks

Electrolytes are needed to maintain proper fluid balance and to optimize your energy levels so you can function at your best.† Electrolyte Stamina Power Pak is an easy-to-fix high performance energy drink with no caffeine or artificial stimulants.

Our formula contains 1200 mg of Vitamin C, an essential antioxidant for people who are active and on the go.† It also contains all major electrolytes (potassium, magnesium, chloride and sodium), plus over 72 verified ionic minerals and trace minerals from ConcenTrace®, which accelerates assimilation and absorption of vitamins and nutrients.†

These electrolytes conduct electrical impulses in the body and also help maintain your body's acid base balance for more energy and vitality.† A deficiency of any one of these electrolytes—or even an imbalance—can cause a wide range of problems, including sluggishness, fatigue, decreased energy and muscle cramping.†

So play harder, endure longer and feel replenished with Electrolyte Stamina Power Pak—the right way to revitalize and recharge your body's natural energy source.

Available Flavors: Lemon Lime, Orange Blast, Concord Grape, Raspberry, Cranberry, and Cherry Limeade.

Certified Vegan, Low Sugar, Gluten Free

Size: 32 packets

40,000 Volts! Electrolyte Concentrate

40,000 VOLTS! Electrolyte Concentrate can turn any beverage into an electrolyte sports replacement drink. Add 1 teaspoon (approximately 80 drops) to a large glass of juice or other beverage anytime electrolyte replacement is desired.†

40,000 VOLTS! is created by blending ConcenTrace® Trace Mineral Drops and Utah Sea Minerals in a special base of liquid potassium citrate and vitamin C. Aids vitality and overall health nutritionally with natural, soluble, ionic minerals and trace minerals.

Certified Vegan, Gluten Free

Size: 8 oz.

ENDURE Performance Electrolyte

Endure – A better way to hydrate!

When it comes to maximizing your performance during intense physical activity, energy, stamina and endurance are crucial. ENDURE is a perfectly balanced pure electrolyte concentrate that contains important electrolytes such as potassium, sodium, magnesium, chloride, and sulfate. Magnesium is an essential electrolyte that naturally relaxes muscles to prevent cramping—a nemesis to the performance athlete.†

Sometimes staying hydrated is a battle in itself because drinking too much water or sweet sports drinks can cause bloating, stomach aches or even an upset stomach. ENDURE can be added to plain water or to any sports drink as an electrolyte booster for effective hydration and enhanced performance with every squeeze from your water bottle.† Since ENDURE is pure electrolytes without the sugars or other additives of sports powders and drinks, you can put ENDURE in your hydration pack with no messy cleanup!

Those who exercise are trying to either maintain or lose weight. Drinking sweet sports drinks is counter-effective because they are loaded with sugar and many times with more calories than are burned during exercise. ENDURE contains no carbs, sugars or calories so you can re-hydrate efficiently and effectively.†
